FOUNDATION

ANNUAL REPORT 2023-24

Report Prepared By

Kamakshi Sharma

Stakeholder Management Team

MESSAGE FROM THE LEADERSHIP

Over the past year, we have made significant strides toward achieving our core mission: to empower students of various age groups from private schools and colleges, and to educate them on cyber safety, equipping them with the knowledge and tools needed for safe and responsible internet use.

NIRMAL SONI
DIRECTOR AND FOUNDER OF
TEAM HASH FOUNDATION

Our Cyber Cop tool has proven to be a powerful asset in assisting law enforcement agencies in tackling cybercrime. Together, we will continue to create impact, solve real-world problems, and drive meaningful change.

SHIVAM KUMAR SINGH
DIRECTOR AND CO-FOUNDER
OF TEAM HASH FOUNDATION

ABOUT US

Team Hash Foundation is a non-governmental organization focused on enhancing cybersecurity.

We provide free cybersecurity services to startups and law enforcement agencies, helping them establish robust security measures and combat cybercrime. Our offerings include assessments, consultations, and training to raise awareness and improve practices in the community.

By empowering these entities, we aim to create a safer digital environment and adapt to the evolving cybersecurity landscape.

By empowering these entities, we aim to create a safer digital environment and adapt to the evolving cybersecurity landscape.

CYBER COP APP

For the year 2023-24

Cyber Cop is a digital tool developed to support both law enforcement personnel and the general public in addressing cybercrime-related concerns. Launched on March 11, 2023, and available on the Google Play Store, the app provides a suite of investigative utilities, including an IP grabber, IMEI checker, tower search, and more. It is designed to offer fast, secure, and intelligent mechanisms for search and tracking, making it a valuable resource for efficient and reliable cybercrime support.
